

Bona IntenseSeal®

Unique, “wet look” that pops stain colors and works with the extractive oils and resins in each species to highlight their colors on natural floors.

Bona IntenseSeal® is a specifically formulated waterborne sanding sealer that develops a vibrant look and deep, natural tone to individual wood species.

- Excellent abrasability – develops rapid hardness and allows for easy abrasion
- Reduces tendency for side bonding
- Minimizes tannin bleed
- VOC Compliant
- Seals the wood, preventing the finish from penetrating

Bona waterborne wood floor sealers offer excellent abrasability, fast dry times, and reduced potential for side bonding and tannin bleed. They are non-flammable and virtually odorless sealers.
